Central Origin of Humanity Open-Source Technologies License (COH-OSL)

Version 1.0 | Effective Date: [YYYY-MM-DD]

Preamble

The **Central Origin of Humanity Open-Source Technologies License (COH-OSL)** is established to ensure that **technological advancements remain free, open, and aligned with the fundamental rights of all people**. It is designed to **protect humanity from unethical exploitation, militarization, and centralized monopolization**, ensuring that technology serves as a **force for empowerment, security, and decentralization**.

By using, modifying, or distributing technologies under this license, you agree to uphold the following principles:

- **Ethical AI & Blockchain Development**
- **Human-Centric Security & Privacy**

- **Decentralized Governance & Fair Participation**
- **Sustainability & Responsible Innovation**

---

1. Definitions

1.1. **"Licensed Technology"** refers to any software, hardware, blockchain protocol, smart contract, AI model, or system covered under COH-OSL.

1.2. **"Licensor"** refers to any individual, organization, or DAO that releases technology under COH-OSL.

1.3. **"Contributor"** refers to any entity that modifies, improves, or builds upon the Licensed Technology.

1.4. **"Decentralized Governance"** refers to governance models utilizing **DAO mechanisms, blockchain-based voting, and smart contract enforcement** to oversee compliance with this License.

1.5. **"Prohibited Use Cases"** are specific restrictions outlined in Section 4.

---

2. Grant of Rights

2.1. **Open-Source Freedom**: The Licensed Technology is freely available for modification, distribution, and use under the conditions set forth in this license.

2.2. **Right to Modify & Improve**: Any individual or entity may **modify, upgrade, or fork** the Licensed Technology, provided that **modifications comply with COH-OSL** and remain **publicly accessible**.

2.3. **Right to Commercialize**: The Licensed Technology may be used commercially, but any proprietary improvements **must be made publicly available** under the COH-OSL.

2.4. **Right to Governance Participation**: Users, developers, and organizations utilizing this License **must adhere to decentralized governance frameworks** to ensure fair participation and **ethical compliance auditing**.

---

3. Obligations & Responsibilities

3.1. **Transparency & Auditability**:

- Any project utilizing COH-OSL must provide **transparent and verifiable records** of its operations.
- **Zero-Knowledge Proofs (ZKPs)** or similar cryptographic methods must be used for secure and private verification of compliance.

3.2. **Post-Quantum Security Enforcement**:

- All blockchain implementations under COH-OSL **must integrate post-quantum cryptographic algorithms** to maintain resilience against future threats.

3.3. **Decentralized Identity & Data Protection**:

- Projects **must implement decentralized identity frameworks** to protect user autonomy.
- **AI training data must be ethically sourced** and protected from unauthorized exploitation.

3.4. **License Continuity**:

- Any derivatives or forks **must remain under COH-OSL** unless explicit permission is granted by decentralized governance.
- **Commercial entities** that monetize derivatives **must contribute a portion of proceeds to community development** under a revenue-sharing smart contract.

---

4. Prohibited Use Cases

The Licensed Technology **must not be used** for:

4.1. **Militarization & Warfare**

- No government, organization, or individual may deploy **Licensed Technology for offensive or defensive warfare**.
- No **autonomous weapons** or AI-driven **military operations** may be developed under COH-OSL.

4.2. **Mass Surveillance & Oppression**

- No entity may use Licensed Technology for **mass surveillance, social credit scoring, or oppressive government control**.

4.3. **Centralized Financial Exploitation**

- COH-OSL **strictly prohibits** centralized banks, corporations, or government institutions from using Licensed Technology for **manipulative financial instruments, predatory lending, or exploitative digital currencies (CBDCs)**.

4.4. **AI Bias & Unethical Data Exploitation**

- AI models must be developed **without biased or discriminatory datasets**.
- All AI-powered decision-making must be **verifiable, explainable, and auditable**.

---

5. Governance & Compliance

5.1. **Decentralized Compliance Mechanisms**

- All entities using COH-OSL technology must integrate **on-chain compliance audits** and **DAO-based governance** for dispute resolution.

5.2. **Revocation of License for Violations**

- If an entity is found **violating** this License, the **DAO-based governing body** reserves the right to revoke access, blacklist addresses, and impose compliance penalties via smart contracts.

---

6. Liability & Dispute Resolution

6.1. **No Warranty Disclaimer**

- The Licensed Technology is provided **"AS IS"** without warranties of any kind.
- The Licensor **is not responsible** for damages resulting from the use, misuse, or modification of the technology.

6.2. **Decentralized Dispute Resolution**

- All disputes regarding COH-OSL **must be resolved via smart contract-based arbitration** governed by **decentralized autonomous organizations (DAOs)**.

---

7. Adoption & Future Amendments

7.1. **Adoption Process**

- Any project, organization, or developer may **adopt COH-OSL** by including this License within their codebase and registering their project on the **COH-OSL blockchain registry**.

7.2. **Future Amendments**

- Amendments to this License **must be proposed, voted on, and executed through DAO governance**.

---

8. Final Statement

The **Central Origin of Humanity Open-Source Technologies License** is more than a legal framework—it is a **vision for decentralized, ethical, and human-centric technological advancement**. It ensures that innovations remain **transparent, secure, and universally accessible**, while preventing the **weaponization, monopolization, or unethical exploitation** of technology.

By adopting this License, you **pledge to build, contribute, and innovate** for the betterment of all humanity.
